**What is SLD or E-Rate?** The Schools & Libraries Program, also known as E-Rate is administered by the Universal Service Administrative Company (USAC) under the FCC. This program provides discounts to assist more schools and libraries to obtain affordable telecommunications, internet access, internal connections and basic maintenance. Discounts for support depend on the number of school children in your district receiving a free or reduced lunch. Discounts range from 20% to 90% of the costs of eligible services. The application process is very involved and tedious....**one mistake and your application is discarded.**

All eligible entities that comply with E-Rate program rules and regulations can be awarded funding.... **you just have to apply!**
